

**Christoph Correll, MD**

***Professor of Psychiatry and Molecular Medicine, Hofstra North Shore-LIJ School of Medicine  
Medical Director, Recognition and Prevention (RAP) program, Zucker Hillside Hospital  
Glen Oaks, New York, USA***

Christoph Correll, MD, is currently professor of psychiatry and molecular medicine at Hofstra North Shore-LIJ School of Medicine and medical director of the Recognition and Prevention (RAP) program at the Zucker Hillside Hospital in New York. He completed his medical studies at the Free University of Berlin in Germany and Dundee University Medical School in Scotland. After finishing his general psychiatry residency at the Zucker Hillside Hospital in Glen Oaks, New York, he trained in child and adolescent psychiatry at Schneider Children's Hospital in New Hyde Park, New York.

Dr. Correll's research and clinical work focus on the identification, characterization, and treatment of adults and youths with severe psychiatric disorders. His areas of expertise include the prodrome, first episode, multi-episode, and refractory illness phase of severe psychotic and mood disorders, including schizophrenia, bipolar disorder, and major depression, as well as aggressive spectrum disorders. He further focuses on the risk-benefit evaluation of psychotropic medications, including the extent and mechanisms of cardiometabolic and neuromotor adverse effects.

Dr. Correll has authored or co-authored more than 300 journal articles and has served on several expert consensus panels on the use of antipsychotics across a range of psychiatric disorders. He is a reviewer for more than 70 peer-reviewed journals and an editorial board member of 11 scientific journals. Dr. Correll is the Principal Investigator or Steering Committee member of several large, federally funded grants. He has received more than 30 national and international research awards and fellowships for his work, and he was listed in 2014 by Thompson Reuters as one of "the most influential scientific minds" and top 1% cited scientists in the area of psychiatry.
