

Lydia Liao, MD, PhD, MPH

Director of Cooper Breast Imaging Centers
MD Anderson-Cooper Cancer Institute
Professor of Radiology
Cooper Medical School of Rowan University
Camden, NJ

Dr. Lydia Liao is a board-certified radiologist and the Director of Cooper Breast Imaging Centers at MD Anderson-Cooper Cancer Institute, NJ. She specializes in Breast Imaging and Breast Interventional Radiology and has been recognized as one of New Jersey's top doctors by New Jersey Monthly and South New Jersey magazines since 2011.

Dr. Liao received her medical degree in 1983 and a Master of Public Health in 1986 from the Beijing Medical University in China. She continued her academic career in the US, where she obtained a PhD in Nutrition / Immunology at the University of Illinois in 1992. Following an internship in Internal Medicine in 1997 and a residency in Radiology in 2001 at the University of Rochester Medical Center, NY, she went on to complete a fellowship on Women Imaging at the University of Toronto, ON in 2002.

In 2003, she joined the University of Rochester Medical Center as an Assistant Professor and Director of Advanced Women's Imaging. In 2006, she joined the Cooper University Hospital, where she is now a Professor in the Department of Radiology.

Dr. Liao has over forty peer-reviewed publications, two patents as co-inventors, and has served as a Principal Investigator or Co-Principal Investigator on eight foundation, industry and government grants, including four NIH grants.
