

Jeffrey D. Greenberg, MD, MPH

Clinical Associate Professor of Medicine
New York University School of Medicine
New York, New York

Jeffrey D. Greenberg completed a medical degree at McGill University in Montreal and a master's degree in public health at University of Medicine and Dentistry of New Jersey. He currently serves as a Clinical Associate Professor of Medicine at New York University (NYU) School of Medicine, Attending Rheumatologist at the Institute for Rheumatic and Autoimmune Diseases in Summit, New Jersey, and Chief Scientific Officer at CORRONA (The Consortium of Rheumatology Researchers of North America). Previously, Dr. Greenberg served as the Associate Director of Clinical and Translational Sciences in a full-time faculty role at the NYU School of Medicine.

Dr. Greenberg is a Diplomate of the American Board of Internal Medicine (Rheumatology subspecialty) and a member of several professional organizations. An active researcher with a focus on health outcomes and pharmacoepidemiology in rheumatoid arthritis, Dr. Greenberg has authored or coauthored more than 100 peer-reviewed manuscripts, as well as several reviews and book chapters. He also serves as a reviewer for several journals and is a frequent invited lecturer.
