Medical Director, Hepatology Clinical and Translational Research  
Rush University Medical Center  
Chicago, IL

Nancy Reau, MD, is Associate Professor of Medicine, Associate Director of Solid Organ Transplantation, and Section Chief of Hepatology at Rush University Medical Center in Chicago, IL. She received her medical degree from The Ohio State University College of Medicine in Columbus, where she completed a residency and fellowship in gastroenterology/hepatology followed by a second fellowship in advanced transplant hepatology at Johns Hopkins Hospital in Baltimore, MD. Her primary research interests focus on viral hepatitis, liver transplantation, and complications of chronic liver disease.

Dr Reau has authored or coauthored more than 100 peer-reviewed articles that have been published in journals such as *Hepatology*, *Hepatitis Research and Treatment*, and *Clinics in Liver Disease*. She has been an invited lecturer at numerous presentations focused on fatty liver disease, viral hepatitis, cirrhosis, and liver transplantation. Dr Reau is a fellow of the American Gastroenterological Association and American Association for the Study of Liver Diseases (AASLD). Additionally, she is a member of the AASLD's HCV practice guideline committee and is Co-Chair of the Medical Advisory Committee (MAC) of the American Liver Foundation, Illinois Chapter.
