

David Kayne, MD

Dr. Kayne is a board certified internist who has been practicing medicine for more than 25 years. In addition to Internal Medicine, Dr. Kayne has had a special interest into the treatment of people with Diabetes. His office offers cutting edge Diabetes treatment including use of the latest technological advances with insulin pumps and sensors as well as use of the most advanced medications including inhaled insulin (Afrezza), insulin analogues, oral agents and GLP-1 injectable medication. In addition, his practice setting at Medical Group of Encino also offers private counseling with a certified Diabetes Educator and Registered Dietician.

He also works with five other board certified internists who have special interests in Infectious disease, Cardiology, HIV, and Geriatrics thus providing a comprehensive therapeutic setting for his patients.

Dr Kayne has over 25 years experience as a principal investigator in more than 50 trials over his career. Many of these diabetic pharmacologic trials have contributed to the approval of well-known medications such as Amaryl, Glumetza, Byetta, Bydureon, Farxiga, Humalog, Apidra, Lantus, Toujeo, Tresiba and Xultophy. Presently he is performing studies combining GLP-1 inhibitors in combination with SGLT2 inhibitors for Type 2 Diabetes and use of SGLT2 inhibitors in Type 1 Diabetes. He is also about to start a trial with the latest cholesterol lowering medication PCSK9 in patients with diabetes who are not getting to goal or who are intolerant to statin therapy.

At age 39 yo, Dr. Kayne served as the youngest Chief of Staff at Encino-Tarzana Medical Center from 2000-2002. He presently is the Chairman of the Diabetes Committee for Providence Tarzana Regional Medical Center. He was a founding member of San Fernando Valley branch of the ADA and presently serves on the community liason board of the ADA in Los Angeles. He is a member of LACMA, CMA and ABIM. He supports the DRI (Diabetes Research Institute) and the JDRF in their cause to cure Diabetes.

Dr. Kayne has received numerous awards including Center of Excellence award from Medtronic for dedicated treatment of Diabetes with insulin pumps and sensors, 2012 Father of the Year award by the ADA, Patient Choice Award, 2011-2012, Compassionate Doctor Recognition 2012 & 2014, Healthgrade Honor Roll, and LA Magazine Super Doctors 2014 & 2015.

An LA native, Dr Kayne attended Fairfax High and then Occidental college where he graduated Magna Cum Laude in 1982. He went on to USC-Keck School of Medicine graduating in 1986. His post-graduate training in Internal Medicine took place at the UCLA Veterans Administration (VA) in West Los Angeles where he served an additional year as Chief Medicine Resident in 1989-90.
