

Susan Ott, MD

Dr. Ott is a professor of medicine with adjunct appointments in radiology and orthopedics. She specializes in research and clinical treatments for metabolic bone disease, such as osteoporosis.

She earned a bachelor's degree from Stanford and her medical degree at the University of Washington. After a residency at the University of California, Davis, she completed a fellowship in nephrology (kidney disease and treatment) at UW. She is board-certified in both internal medicine and nephrology.
