

David T. Rubin, MD, FACG, AGAF, FACP, FASGE, earned his medical degree with honors at the University of Chicago Pritzker School of Medicine. He completed his residency in internal medicine and fellowships in gastroenterology and clinical medical ethics at the University of Chicago, where he served as Chief Resident and Chief Fellow. Dr. Rubin served for 11 years as director of the Gastroenterology, Hepatology and Nutrition fellowship program. He currently serves as an associate faculty member at the MacLean Center for Clinical Medical Ethics and an associate investigator at the University of Chicago Comprehensive Cancer Center.

Dr. Rubin is a Fellow of the American Gastroenterological Association, the American College of Gastroenterology (ACG), the American Society for Gastrointestinal Endoscopy, and the American College of Physicians. He is an active national member of the Crohn's & Colitis Foundation of America (CCFA) and is on the Board of Trustees for the ACG. Dr. Rubin was chosen by his peers as a member of Best Doctors (superior clinical ability) and America's Top Physicians (gastroenterology). Additionally, he twice received the ACG's Governor's Award of Excellence in Clinical Research (2003 and 2013), the Cancer Research Foundation Young Investigator's Award (2004), and the UC Postgraduate Teaching Award for significant contributions for fellowship education (2006). In 2012, he received the CCFA's Rosenthal Award for his volunteer work in improving the quality of life of patients and families.

Dr. Rubin is the editor of a best-selling book on inflammatory bowel disease (IBD), now in its 2nd edition. He is also an author or coauthor of many peer-reviewed articles on IBD, genetic testing in IBD, and cancer in IBD. He is also a featured media contact for issues related to IBD, appearing on satellite radio, television, and print media. His principal research interests include novel IBD therapies and outcomes, colon cancer prevention, and clinical medical ethics.
