

Michelle Johnson, MD, MPH, FACC

Dr. Johnson is currently Clinical Director of Cardiology and Fellowship Director of Cardio-Oncology at Memorial Sloan Kettering Cancer Center (MSKCC) and is also an attending physician at the Memorial Hospital for Cancer and Allied Diseases, both in New York, NY. She received her BS in molecular biology from Haverford College in Haverford, PA; her MD from Weill Cornell Medical College in New York, NY; and her MPH from Harvard School of Public Health in Boston, MA. Dr. Johnson completed her residency in internal medicine and a fellowship in cardiology at Beth Israel Medical Center in New York, NY. Her clinical background spans cardio-oncology as well as cardiovascular disease in ethnic minorities and women.

Dr. Johnson was a recipient of the Harvard University Commonwealth Fund Fellowship, has been named one of Castle Connolly's top doctors for the New York metro region, and has received the Caribbean Luminary Award from the American Foundation for the University of the West Indies. A Fellow of the American College of Cardiology, Dr. Johnson has served as an investigator and a collaborator on several research grants and has been involved in writing several peer-reviewed journal articles and reviews. In addition, she still maintains a busy clinical practice at MSKCC.

Dr. Johnson is both a teacher and a mentor at MSKCC, and she is very involved in community outreach activities—including initiatives from MSKCC's Office of Diversity Programs and Employee Health as well as programs offered under the auspices of the Association of Black Cardiologists and the American Heart Association. These programs involve patient education, pipeline development, and mentorship—primarily to support underserved ethnic minorities and women as a means of addressing health disparities in these groups.
