

Nicholas Furiasse, MD, MS

Dr. Nicholas Furiasse is a native of the Chicago area. He is currently the advanced heart failure, mechanical circulatory support & cardiac transplant fellow at Cedars-Sinai Medical center and will be joining Northwestern University in the summer of 2017. He completed his B.A. at the College of the Holy Cross and M.D. at Georgetown University. His internal medicine training and cardiology fellowship were completed at Northwestern University where he served as both chief medicine resident and chief cardiology fellow. While at Northwestern, Dr. Furiasse completed a Master of Science in Clinical Investigation and a fellowship in advanced multimodality cardiovascular imaging. His clinical and research interests are focused on the application of cardiovascular imaging techniques in the diagnosis, prognosis and treatment of various cardiomyopathic processes (including VAD and cardiac transplant). He is also engaged in medical education at the trainee, provider, and community levels. He has been active with the American College of Cardiology serving as the fellow director of the Northern Illinois/Wisconsin chapter arranging local research and career develop events. He is a graduate from the inaugural ACC National Leadership Academy.
