

Faculty Bio

Carole Moloney, RN, MSN, CPNP

Clinical Instructor of Pediatrics
Boston University School of Medicine
Pediatric Infectious Diseases
Boston Medical Center

Carole H. Moloney, RN, MSN, CPNP, is a clinical instructor in the department of pediatrics at Boston University School of Medicine. She is a certified pediatric nurse practitioner in the section of pediatric infectious diseases at Boston Medical Center. She also serves as the clinical research nurse, nurse clinician, and coordinator of the pediatric infectious diseases section, which encompasses both the pediatric and adolescent HIV program and the hepatitis program.

Ms. Moloney received her undergraduate nursing degree from Boston University and her master's of science degree in nursing from Northeastern University, also in Boston, Massachusetts. She has been at Boston City Hospital/Boston Medical Center since 1983.

Ms. Moloney serves as a member of the Adolescent Immunization Leadership Council, the Continuing Medical Education Advisory Board on Nursing Education, the Nurses Immunization Leadership Council, and the Pain Free Pediatrics Committee. Ms. Moloney has also given numerous presentations on topics such as pediatric HIV, pediatric AIDS, and vaccines and immunizations.

Ms. Moloney's research activities include participation with the International Maternal Pediatric Adolescent AIDS Clinical Trials Group, as well as research efforts in the area of hepatitis C. She is active in education about immunizations and overcoming barriers that impede immunization success.
