

W. DAVID HARDY, MD, AAHIVS

Dr. Hardy joined Whitman-Walker Health in October 2015. Prior to joining, he served as Professor of Medicine at the David Geffen School of Medicine at UCLA and Chief of the Division of Infectious Diseases at Cedars-Sinai Medical Center in Los Angeles, California. He also served as Chief Medical Officer of the biotech company Calimmune, overseeing 2 Phase 1 trials of gene-modified CD4+ T cells and stem cells as a strategy to cure HIV infection.

Originally from Texas, Dr. Hardy attended the University of Texas at Austin. He received his medical degree from Baylor College of Medicine in Houston, Texas, and completed his residency in internal medicine at Harbor/LA County-UCLA Medical Center in Torrance, California. Dr. Hardy completed his fellowship in infectious diseases/clinical immunology and HIV research at the UCLA School of Medicine. Later, he also completed a postdoctoral fellowship in molecular virology at UCLA studying viral vector applications for vaccines and gene therapy.
