

**Alan M. Rapoport, MD**

Clinical Professor of Neurology  
David Geffen School of Medicine at UCLA  
Los Angeles, California

Dr. Alan Rapoport is a Clinical Professor of Neurology at the David Geffen School of Medicine at UCLA, Los Angeles, California, where he teaches medical students, neurology residents, and fellows. He is the co-founder of BonTriage, an IT company in Silicon Valley, California, dedicated to helping patients and doctors around the globe by collecting detailed patient histories online and linking with an app that monitors patient progress and outcomes. The company has started with headache and is moving into sleep, depression, anxiety, chronic pain, and other areas.

Dr. Rapoport is board certified in neurology and headache medicine. He is immediate past president of the International Headache Society (IHS) and the Fairfield County Neurological Society (Connecticut). He is founder and director-emeritus of The New England Center for Headache in Stamford, Connecticut, founding president of the Headache Cooperative of New England (HCNE), founding director of the Headache Cooperative of the Pacific (HCOP), and was the chairman of the Education and Membership Committee of the IHS. In addition, Dr. Rapoport has served on the Board of Directors of the American Headache Society (AHS) and is currently a member of the board of trustees of the IHS. He is an editor of *Headache*, *CNS Drugs*, and editor-in-chief of *Neurology Reviews*. In addition, he reviews for many peer-reviewed journals including *Cephalgia*, *Neurology*, *New England Journal of Medicine*, and *Headache*. Dr. Rapoport has co-authored nine books on headache for patients, physicians and nurses, and more than 300 articles, chapters, and posters on headache and other neurological diseases. He has lectured around the country and internationally to general physicians and headache specialists on all aspects of headache pathophysiology, diagnosis and treatment, and has appeared many times on national radio and television programs including *Today* and *Good Morning America*.
