### **Adda Grimberg, MD**

Associate Professor of Pediatrics  
Perelman School of Medicine  
University of Pennsylvania

And

Scientific Director  
Diagnostic and Research Growth Center  
Children's Hospital of Philadelphia  
Philadelphia, PA

Adda Grimberg, MD is Associate Professor of Pediatrics at the Perelman School of Medicine, University of Pennsylvania, and Scientific Director of the Diagnostic and Research Growth Center at the Children's Hospital of Philadelphia.

She received her undergraduate and medical education at Cornell University, and completed both her residency in Pediatrics and fellowship in Pediatric Endocrinology at the Children's Hospital of Philadelphia. She was subsequently appointed to the faculty in the same institution in the division of Pediatric Endocrinology and Diabetes.

Trained as a translational physician scientist, Dr. Grimberg's research focuses on the growth hormone (GH)/insulin-like growth factor (IGF) axis and clinical issues related to child growth. She has published over 70 scientific articles, reviews and textbook chapters. Her research has been recognized with numerous awards, including the Pediatric Endocrine Society Genentech Clinical Scholar Award, and with coverage in multiple media venues in the United States and abroad, including the New York Times.

Dr. Grimberg was appointed Chair of the taskforce charged with drafting the new guidelines for GH and IGF-I use in children and adolescents for the Pediatric Endocrine Society.
