TOPICS AND SPEAKERS – DIGITAL MAMMOGRAPHY

- Managing the Transition to Digital Mammography
  Edward A. Sickles, MD, FACR

- Computer-aided Detection of Breast Lesions: A Clinical Perspective
  Edward A. Sickles, MD, FACR

- A Systematic Approach to Diagnostic Mammography
- Calcifications of Digital Mammography
  Dorota J. Wisner, MD, PhD

- Informatics in Breast Imaging: NMD, BCSC, CAD, Decision Support, Risk Prediction

- Experience and Lessons post-DMIST
- Digital Breast Tomosynthesis
  Elizabeth S. Burnside, MD, MPH

- Digital Mammography Cases: Applying the Systematic Approach
- DM Cases: Challenges and Pitfalls
  Bonnie N. Joe, MD, PhD

- DM Manifestations of Breast Cancer
  Elissa R. Price, MD

- Optimizing Workflow in the Current Era of Digital Technology
- Problem Solving / Emerging Techniques in Digital
- Breast Imaging, Including Tomosynthesis
  Faculty Panel

BREAST IMAGING

- BI-RADS Update: The New (5th) Edition
- Screening Mammography Interpretation at the Threshold for Recall
- Breast Density: How Important Is It?
- Mammographic Interpretation at the Digital Workstation: Challenging Cases
- The Radiologist Expert Witness
  Edward A. Sickles, MD, FACR

- Use of BI-RADS in Breast Ultrasound
- Controversies in Screening Mammography: 40-50 Age Group, Over Diagnosis, Other Issues
- Breast Asymmetries
- Audits and Quality Outcome Measures
  Elizabeth S. Burnside, MD, MPH

- Stereotactic Breast Biopsy
- Are We Done? Assessment of Breast Radiology
  Dorota J. Wisner, MD, PhD

- MRI Optimization Tips for the Clinical Radiologist
- Breast MRI Technical Pearls, Avoiding Common Pitfalls
- Breast MRI Case Review
  Bonnie N. Joe, MD, PhD

- Breast MRI Indications and BI-RADS Interpretation
- Breast MR Biopsy Tips and Tricks
- Multimodality Case Review
  Elissa R. Price, MD

- Pathology – Concordance After Biopsy
- Discussion: BI-RADS, Management Issues
- Discussion: Appropriate Use of BI-RADS 3, Controversies in Breast Imaging
- Discussion: Breast MRI, High Risk Screening
