

Anthony L. Rostain, MD, MA is a Professor of Psychiatry and Pediatrics at the University of Pennsylvania's Perelman School of Medicine (PSOM). His clinical focus is "lifespan developmental neuropsychiatry" which includes patients of all ages with ADHD, Autism Spectrum Disorder, Tourette Syndrome, Learning Disabilities and co-morbid psychiatric conditions. He treats patients both at The Children's Hospital of Philadelphia and at Penn Behavioral Health, where he is Medical Director of the Adult ADHD Treatment and Research Program.

Dr. Rostain's research interests have focused on improving clinical outcomes for patients with ADHD and other neuropsychiatric disorders, and in creating effective service systems for high risk children, youth and families. He is co-author, with Dr. Russell Ramsay, of *Cognitive-Behavioral Therapy for Adult ADHD: An Integrative Psychosocial and Medical Approach, Second Edition*, and of *The Adult ADHD Tool Kit: Using CBT to Facilitate Coping Inside and Out* (Routledge Press, 2015). He is also Past-President of APSARD, the American Professional Society of ADHD and Related Disorders.
