

## The Evolution of **Multiple Myeloma** Patient Management: Managing Today, Preparing for Tomorrow

### Faculty Biographies

**A. Keith Stewart, MBChB, MRCP, FRCPC, MBA—Program Co-Chair**

Carlson and Nelson Endowed Director  
Center for Individualized Medicine  
Vasek and Anna Maria Polak Professor of Cancer Research  
Consultant, Division of Hematology/Oncology  
Mayo Clinic  
Scottsdale, Arizona

Keith Stewart is a consultant in the Division of Hematology and Oncology, Department of Internal Medicine at Mayo Clinic. He currently serves as the Carlson and Nelson Endowed Director of the Mayo Clinic Center for Individualized Medicine and is recognized as the Vasek and Anna Maria Polak Professor of Cancer Research. Dr. Stewart's current responsibilities at Mayo Clinic relate to the application of genomics to human health across the spectrum of discovery, translation, and application to clinical practice.

Dr. Stewart has served in several leadership roles across both research and clinical practice at Mayo Clinic, including as dean for research in Arizona, and as a member of the Arizona Executive Operations Team and Clinical Practice Committees. He has served on multiple boards for both non-profit and commercial organizations.

Dr. Stewart's research interest focuses on the genomics and biology of myeloma, and he has led numerous clinical trials of new drugs for this blood cancer. He has over 25 years of sustained national funding for a laboratory research program and has authored over 300 journal articles and other written publications. He has served as an associate editor of *Blood* and *ASH Clinical News*.
