

Faculty Bio

Siegfried O. F. Schmidt, MD, PhD, FAAFP

Professor

Department of Community Health and Family Medicine

Director, Chronic Pain Management Program at Main

UF Health Family Medicine - Springhill

University of Florida

Gainesville, FL

Dr. Schmidt is Professor of Family Medicine in the Department of Community Health and Family Medicine at the College of Medicine at the University of Florida in Gainesville. He is faculty of the UF Pain Research and Interventional Center of Excellence and the Genomic Medicine Implementation: The Personalized Medicine Collaborative 2 (IGNITE 2). He is a board certified in Family Medicine by the American Board of Family Medicine since 1992. He is Fellow of the American Academy of Family Physicians. He obtained additional certifications in Controlled Substance Management by the American Board of Interventional Pain Physicians and Office-Based Treatment of Opioid Use Disorders by the American Academy of Addiction Psychiatry.

Dr. Schmidt is part of many professional medical societies and received various high honors in his field, including being selected for The Best Doctors in America, "America's Top Family Doctors", Best Teacher Award, Golden Gator Award (for excellence and dedication to the education of residents), and UF Health Shands Physician Customer Service Award winner.

He is a member of the State of Florida Medical School Pain Management Working Group appointed by the Council of Florida Medical School Deans (CFMSD). Dr. Schmidt has authored numerous books, instructional videos, book chapters, and journal articles. He has participated in multiple grants and has delivered over three hundred international, national, regional, and statewide presentations. He has been instrumental in creating the Pain Management Program within the UF Family Medicine Residency Program at Main Street. He is also a volunteer physician for Alachua County's We Care program and UF's Equal Access Clinic, providing care for indigent populations.
