

Steven W. Pipe, MD, is a professor and the Laurence A. Boxer research professor of pediatrics and communicable diseases, as well as a professor of pathology at the University of Michigan, Ann Arbor, MI. Dr Pipe completed his undergraduate medical training and received his medical degree from the University of Toronto, Ontario, Canada. He completed his pediatric training at the McMaster University in Hamilton, Ontario, and his pediatric hematology and oncology training and fellowship in the Pediatric Scientist Development Program at the University of Michigan. Dr Pipe is certified by the American Board of Pediatrics in pediatric hematology/oncology.

Dr Pipe is the medical director of the Pediatric Hemophilia and Coagulation Disorders Program and medical director of the Special Coagulation Laboratory at the University of Michigan. His clinical interests include bleeding and thrombotic disorders and congenital vascular anomalies. Dr Pipe also directs a basic research lab investigating coagulation factor VIII and the molecular mechanisms of hemophilia A.

Dr Pipe was awarded a Young Investigator Award from both the American Society of Pediatric Hematology and Oncology and the International Society on Thrombosis and Haemostasis, and a Faculty Scholar Award from the American Society of Hematology. He has been the recipient of the Leadership in Research Award from the National Hemophilia Foundation. Dr Pipe has served on the Board of Directors for the Hemostasis and Thrombosis Research Society, as chair of the Board of Directors for the American Thrombosis and Hemostasis Network, and is currently the Chair of the Medical and Scientific Advisory Committee to the National Hemophilia Foundation.
