Having eczema is complicated. Managing it shouldn’t be. EczemaWise helps you make sense of the everyday things that impact your health. From triggers, to diet, to medication – EczemaWise tracks the little and big things in your life that can cause your skin to flare.

You are eczema smart, now get EczemaWise.

Ditch your notebook
Built by people with eczema for people with eczema, EczemaWise has the tools you need to really understand and track your condition.

Visualize clear
EczemaWise helps you pinpoint trends and patterns in your health data and analyze what may be contributing to your flares.

Track what’s important
There’s a whole lot of science behind EczemaWise. We built our trackers based on tools and measures commonly used in medical research. So rest assured, you’re tracking the right information in the right way for yourself and your health care provider.

Get the most out of your next appointment
EczemaWise features a set of custom tools designed to help you work with your provider to get the right care for you. Explore new treatment options, keep track of appointments and let your provider know what’s important to you when choosing an eczema therapy.
