

**Philip J. Mease, MD**

Director,  
Rheumatology Research Division Swedish Medical Center/Providence St.  
Joseph Health  
Clinical Professor of Medicine, University of Washington  
Seattle, Washington

**Philip J. Mease, MD**, is Director of the Rheumatology Research Division at Swedish Medical Center/ Providence St. Joseph Health and Clinical Professor of Medicine at the University of Washington in Seattle. He received his medical degree from Stanford University in California before completing a residency in Internal Medicine and a fellowship in Rheumatology at the University of Washington.

Dr. Mease's major research interests include psoriatic arthritis (PsA) and spondyloarthritis (SpA). His work includes research on disease state, development of outcome measures, and determining the efficacy and safety of emerging therapies for these conditions. Dr. Mease has authored more than 450 journal articles, numerous abstracts, and book chapters. He is Past President, Founding Organizer, and current Treasurer of the Group for Research and Assessment of Psoriasis and Psoriatic Arthritis, and he is member of its Collaborative Research Network Steering Committee.

Dr. Mease is a member of the Assessment of Spondyloarthritis International Society and the Spondyloarthritis Research and Treatment Network. He is active in the Outcome Measures in Rheumatology Clinical Trials organization as Co-Chair of the PsA and Chronic Pain Working Groups and is a steering committee member. Dr. Mease is the Scientific Director of the PsA and SpA arms of the Consortium of Rheumatology Researchers of North America registry.
