

## Faculty Bio

### **Martin D. Cheatle, PhD**

Associate Professor of Psychology in Psychiatry  
Department of Psychiatry  
Perelman School of Medicine, University of Pennsylvania  
Philadelphia, Pennsylvania

Dr. Martin Cheatle received his PhD in psychology at Princeton University and completed an NIH research fellowship and clinical internship/residency at the Hospital of the University of Pennsylvania. He is an Associate Professor of Psychology in Psychiatry at Perelman School of Medicine, University of Pennsylvania, Philadelphia. In addition, Dr. Cheatle is Director of Behavioral Medicine at the PENN Pain Medicine Center and Director of Pain and Chemical Dependency Research at the Center for Studies of Addiction, University of Pennsylvania.

Dr. Cheatle holds membership in the International Association for the Study of Pain, Society of Behavioral Medicine, American Psychological Association, American Pain Society, and is a fellow and diplomate of the American Board of Medical Psychotherapists. He is on the editorial board of *Pain Medicine*, the Opioids and Substance Use Disorders section editor at *Pain Medicine*, and is an ad hoc reviewer for numerous medical journals.

Dr. Cheatle specializes in the evaluation and treatment of chronic pain disorders from a biopsychosocial perspective and has been involved in extensive research on the development of addiction in patients on prescription opioid therapy for chronic pain, and assessing phenotypic and genotypic markers of prescription opioid abuse. His main focus of research is pain management and addiction in vulnerable populations (HIV/AIDS, psychiatric patients) and pain and suicidal ideation and behavior.
