

Faculty Bio

Anne H. Cross, MD

Professor of Neurology

Manny and Rosalyn Rosenthal and Dr. John L. Trotter Multiple Sclerosis

Center Chair in Neuroimmunology

Washington University School of Medicine

St. Louis, MO

Dr. Anne H. Cross is a professor of Neurology at Washington University in St. Louis, where she holds the Manny & Rosalyn Rosenthal and Dr. John L. Trotter MS Center Chair in Neuroimmunology and has served as Section Head of the Neuroimmunology/MS Section since 2001.

Raised in Mobile, Alabama, Dr. Cross graduated cum laude from the University of Alabama School of Medicine and was selected for the Alpha Omega Alpha medical honorary. After residency training in adult neurology at George Washington University, she spent several years as a post-doctoral fellow training in neuroimmunology and neuropathology at the National Institute of Health with Drs. Dale McFarlin and Henry McFarland and later at Albert Einstein College of Medicine with Drs. Cedric Raine and Celia Brosnan. Dr. Cross pursued further training in the clinical care of MS patients at Albert Einstein College of Medicine with Dr. Labe Scheinberg and received the Harry Weaver Neuroscience Scholar award of the National Multiple Sclerosis Society in 1990 and the John Jay Dystel Prize in 2019.

Dr. Cross joined the Washington University Department of Neurology in 1991. Her research has been continually funded by the National MS Society, the NIH and/or the U.S. Department of Defense since she opened her laboratory in 1991. Her laboratory currently focuses on advanced imaging studies of progressive MS and the role(s) of B cells and B cell products in MS and its animal models. During her nearly 30 years at Washington University, she has trained more than 30 students, residents, and fellows; she is very proud that they all continue to actively contribute to the research and care of MS and related diseases.
