

## Faculty Bio

**Michael D. Hogue, PharmD, FAPhA, FNAP**

Dean and Professor

Loma Linda University School of Pharmacy

Loma Linda, CA

Michael D. Hogue is the current Dean and Professor of Loma Linda University School of Pharmacy, Loma Linda, California. He serves as the 165th president of the American Pharmacists Association (APhA) and is the immediate past Speaker of the House of Delegates of APhA. Throughout his career, Dr. Hogue has served many different roles in pharmacy practice, including owning an independent community pharmacy and home infusion company, working in a chain community pharmacy, and later as an ambulatory care pharmacist in family practice medicine.

Dr. Hogue was on the staff development team and an original national faculty member for APhA's Pharmacy-Based Immunization Delivery national certificate program for pharmacists, which over 350,000 pharmacists and student pharmacists have completed since its inception in 1996. He continues to be actively engaged in immunization policy and advocacy in pharmacy, as well as education of nurse practitioners and physicians in disease prevention through vaccines. He has conducted several studies in the area of vaccine implementation through pharmacies, written dozens of manuscripts and monographs related to vaccines and vaccine preventable diseases and speaks frequently around the globe on the subject. Dr. Hogue was the first pharmacist in the state of Alabama to administer vaccines in his pharmacy practice in 1997.

Dr. Hogue holds a Bachelor's in Pharmacy and a PharmD degree from Samford University, Birmingham, Alabama. As a student, he became very involved in the pharmacist recovery network movement and served as the editor and author on a book to assist schools and colleges of pharmacy in dealing with drug and alcohol abuse within the profession. As a practitioner and later as president of APhA's Academy of Pharmacy Practice and Management, Hogue led or served on several sentinel groups to move the recognition of pharmacists forward, including the Pharmacy Services Technical Advisory Committee (PSTAC) to the American Medical Association, and the consensus group which was assigned with the responsibility of defining Medication Therapy Management Services. He subsequently published with APhA the profession's first two books on payment for pharmacist's non-dispensing services.
