

Judy Korner, MD, PhD

Associate Professor of Medicine
Division of Endocrinology
NewYork-Presbyterian
Columbia University Irving Medical Center
New York, NY

Judy Korner, MD, PhD, is Professor of Medicine in the Department of Medicine and Division of Endocrinology and Metabolism at NewYork-Presbyterian/Columbia University Irving Medical Center, where she is also Director of the Metabolic and Weight Control Center. Dr Korner received her undergraduate degree from Barnard College and her medical degree from the College of Physicians and Surgeons of Columbia University where she also obtained her PhD in Biochemistry and Molecular Biophysics. She completed her internship and residency in Internal Medicine, served as Chief Medical Resident, and completed her fellowship in Diabetes, Endocrinology, and Metabolism at Columbia University Medical Center. Dr Korner is board certified in Endocrinology and is Chair of the American Board of Obesity Medicine Board of Directors. Dr Korner's National Institutes of Health-funded research is focused on the pathophysiology and treatment of obesity and type 2 diabetes with an emphasis on the mechanisms of weight loss and improvement in diabetes after bariatric surgery. She has published original research papers in addition to review articles and book chapters on obesity.
